SCRTP Stakeholder Meeting

Meeting Notes

October 19, 2026

2:00 PM

TEAMS

The purpose of this meeting was to review, discuss and receive input from the stakeholder group on the initial results of economic power transfer sensitivities chosen by the stakeholders at the previous stakeholder meeting. An update on SCRTP's compliance plan for FERC Order 1920 was also provided and questions answered from stakeholders.

The welcome and introduction were made by Scott Parker from DESC.

Jeff Neal discussed the purpose and goals of the meeting.

Chris May presented the findings of the economic power transfer sensitivities for Santee Cooper. Jeff Neal presented the findings for DESC. Stakeholder input on the transfer sensitivity findings for DESC and Santee Cooper was solicited. Scott Parker discussed the proposed Public Policy Request made by the stakeholders in the Q2 meeting. The sponsors indicated, as they did in the Q2 meeting, that they did not believe the request met the requirements of a PPR. There was some back and forth between the sponsors and stakeholders around this topic with the stakeholders expressing a differing view. The discussion then turned to the specifics of the economic sensitivities studied.

Jeff Neal gave a brief update on Order 1920. The sponsors indicated the FERC filing to merge the SCRTP with SERTP had been made earlier in October. Jeff then discussed the planned compliance filing for Order 1920 to be made in December 2026.

Scott Parker closed the meeting by thanking the stakeholders for their active participation in the SCRTP stakeholder over the many years since the implementation of the FERC Order 1000.

The meeting was adjourned at 3:42 PM.
